

BRING YOUR VISION TO LIFE

Spark your imagination as you experience the rich color options Midmark has to offer. Mix and match resins, cabinet panels, countertops and upholstery colors without the guesswork so you can easily visualize your space. Contact your Midmark Representative to order samples.

CABINET FINISHES

Available in a variety of Arauco® and Formica® colors, Artizan Expressions uses thermally fused melamine panels. These panels are created at high temperature and pressure to form a durable, peel-resistant finish. Matching 3-mm edgebanding is applied to completely seal the corners from moisture, ideal for infection prevention.

SOLID SURFACE COUNTERTOPS

Solid surface is a unique material made from an advanced blend of natural minerals and acrylic polymer. It has proven itself to be a remarkably durable, versatile material that's an ideal surface for dental environments.

Because it is non-porous, stains do not penetrate the surface. It is a completely solid surface that will not support microbial growth when properly cleaned.

The superior durability of solid surface allows it to survive impacts, nicks and cuts that blemish most surfaces. With the ability to buff away nicks and scratches, solid surface countertops will look and perform like new for many years.

QUARTZ COUNTERTOPS

Quartz countertops are 93% pure quartz crystal, which gives them a natural depth and radiance without the imperfections common in unimproved stone. And, because quartz is one of nature's strongest materials, it is also incredibly durable, exceptionally tough and scratch resistant.

Quartz is virtually maintenance free. This smooth, non-porous surface resists even the toughest stains and will retain its luster for many years without the need for sealants or waxes.

LAMINATE COUNTERTOPS

Offering a variety of selections, laminate countertops provide function while complementing any style of decor. Today's choices come in more contemporary colors and patterns, looking more realistic than ever before.

Laminate countertops are easy to clean and maintain, requiring no special maintenance. Costing less than solid surface, quartz and engineered stone, laminate is an affordable solution for your countertop needs.

UPHOLSTERY

Ultraleather® offers beautiful, luxurious soft surfaces with exceptional durability. In fact, no material comes closer to duplicating the look and styling of leather. With no VOCs, POPs or formaldehyde, Ultraleather is also environmentally friendly.

RESIN PANELS

Lumicor® EcoShield panels are made of Lumiform, a PETG resin that is 40-times stronger than glass, impact resistant and made with a minimum of 40% recycled content. This resin fully encapsulates hand-laid botanicals, organics, woven textiles or graphics. The end result is a panel that provides an artful expression on your treatment station upper cabinet.
