

Midmark Artizan Expressions cabinetry offers rich and timeless elements from traditional to modern styles for a distinctive expression that is all your own. Let us help you create a warm and inviting space built to withstand the rigors of the dental environment

DESIGN FLEXIBILITY

The Artizan Expressions cabinetry collection can be customized to meet your visual preferences as well as your ergonomic workflow, infection control, technology integration and unique storage requirements.

Want to see more color options? Use our dental design tool to help find your individual style and visualize what your operatory and sterilization space will look like.

01 Distinctive Design

Artizan Expressions breaks the stereotype of clinical-looking dental cabinetry. Features like the treatment station's sleek slim profile midsection and the central station's stylish vanity front and Ultraleather® accents complete a picture of refinement in any dental office.

02 Expressive Style

Choose from a wide variety of plush accent upholstery, artful resin panels, woodgrain and solid cabinet panels, and durable countertop selections to create a style all your own.

03 Attention to Detail

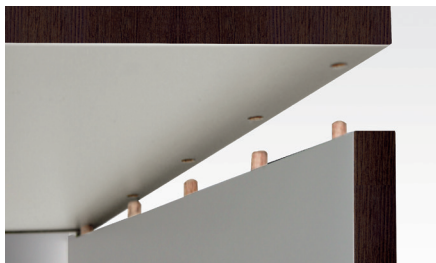

We use only quality components and materials on every cabinet we build. This collection delivers quality construction with seamless, stainless steel bases, soft-close doors and drawers, 3/4" panel construction and brushed nickel handles.

ARTIZAN® EXPRESSIONS
