

DENTAL NERVE BLOCK LAB

2 hours RACE CE for
Your Dental Team

REGIONAL DENTAL ANESTHETIC BLOCKS

Extend your training! This exclusive add-on to your Midmark Dental Radiography Positioning Lab (VI-RAD) or Cleaning, Probing and Charting Best Practices Lab (VI-CPC) is an excellent opportunity to extend your in-clinic training.

Nerve blocks are important for keeping your patients comfortable both during and after a dental procedure. This training ensures you and your team are up to speed on best practices and proven techniques.

Your Midmark training specialist will:

- Introduce pain management concepts for dentistry
- Discuss drugs of choice and protocols
- Review equipment, supplies and technique for delivering nerve blocks
- Demonstrate and help you practice delivering regional nerve blocks for dentistry

Also included:

- Special considerations for brachycephalic patients
- Common reactions under general anesthesia
- Tips, tricks and common errors
- What to expect during recovery

TRAINING COURSE: VI-RAD-ADD

Veterinarians and credentialed technicians who complete this session will earn 2 hours of CE credits.*

Class size is limited to ten attendees, and one attendee MUST be a veterinarian.
