

Midmark Medical On-Site Training

Overview

Training classes for our Medical products are available to our Medical product dealers and authorized Midmark service companies only. (If you are interested in becoming an authorized Midmark service company, please contact Kent Paulus at kpaulus@midmark.com).

Please check the schedule for our complete listing of medical products training classes and refresher courses. Refresher training classes are available for recertification to anyone who has attended a Midmark training class within the past five years.

Our Medical Products training classes begin on a Tuesday morning and run through Thursday afternoon of the same week at a cost of \$600 per person. The Refresher training class begins on Tuesday and runs through Wednesday of the same week at a cost of \$400 per person. We ask that our guests arrive in Versailles by 5:00 pm on the Monday prior to the start of class. For those guests who will be flying in, we suggest that you arrive at the Dayton International Airport by 4:00 pm on Monday. If your scheduled arrival time is after 4:00 pm, you will need to arrange your own transportation to Versailles, OH (approximately 40 miles).

The registration fee covers the cost of the training course, lodging, meals and scheduled activities. Guests will be staying at The Inn at Versailles. Midmark will provide transportation between The Inn at Versailles, the training facility and the scheduled activities.

If you would like to attend one of the training classes, please go to the Register for a Class link. You will receive a confirmation via e-mail. Each class will accept the first 12 registrants. You can also register by contacting Kent Paulus at kpaulus@midmark.com.
