Stools & Chairs

427 Air Lift Physician Stool
Includes the same features as the 425, but with a foot lever instead of a hand ring. A touch of your heel to the foot lever pneumatically adjusts the height, allowing you to maintain a sterile field. The 427 is shown with optional back kit that adjusts in, out, up and down, and optional arm kit that adjusts in, out and angularly.

Designed and Manufactured to Exceed Your Expectations
It begins with a wide, five-leg caster base that provides support and stability. The stand-up base allows close accessibility to the patient while heavy-duty, dual-wheel, hooded casters enable stools to maneuver quickly over all types of surfaces.

Adding to the strength and stability of our stools is the solid steel machine screw on manual models, or air cylinder on pneumatic models. The air cylinder further acts as a built-in shock absorber, taking the strain of a hard day’s work instead of you, and in a simple and efficient method when adjusting the seat height (ideal for group practices).

Contact is provided in the form of a wide, padded rail and footrest constructed of chosen foam. A height-adjusting footrest eliminates the stress from digging into your legs. Add a backrest to promote better posture and support to leave you feeling less fatigued at day’s end.

With many choices, colors and accessories, there is certain to be a stool just right for you.

Classic Series Stools
The healthcare industry’s most demanded stools and the foundation of our seating product line. The Classic Series features a polished aluminum/black accented five-leg caster base and hood with a hand ring or foot lever height control (on pneumatic models). The seat height of the 274 (without back) and 275 (with back) adjusts manually while that of the 276 (without back) and 277 (with back) adjusts pneumatically. The 275 (foot ring) and 276 (hand ring) offer pneumatic height adjustments and an armrest to stabilize the physician’s arm during delicate procedures.

Value Series Stools
The economy version of the popular Classic Series offers black, plastic composite five-leg caster base and hood, and a single lever height control on pneumatic models. The seat height of the 274 (without back) and 275 (with back) adjusts manually while that of the 276 (without back) and 277 (with back) adjusts pneumatically.

Stools & Chairs

680 Side Chair
Soft and comfortable seating for your patients in the exam room, waiting room and front office. The 680 comes with all the extras: contoured seat and back section (sold separately) provide maximum comfort; sturdy, powder coated black steel tube frame with leveling feet for increased stability; and a wall-saver kickback leg design that allows the chair to be closer to the wall without damaging it. Available with or without high-impact plastic chair arms.

281 Blood Drawing Chair
The slightly angled back and adjustable chair arms offer patient comfort and security. Arms are equipped with quick-release mechanisms for single -hand adjustment of the height and backward/forward angle. The 281 is available with a choice ideal for storing supplies and providing an additional work surface.

406 Side Chair
The slightly angled back and adjustable chair arms offer patient comfort and security. Arms are equipped with quick-release mechanisms for single -hand adjustment of the height and backward/forward angle. The 406 is available with a choice ideal for storing supplies and providing an additional work surface.

425 Air Lift Physician Stool
The ergonomic design of the 425 features a contoured seat that molds to your body shape, making it the most comfortable stool you will ever sit on. A simple lift of the hand ring pneumatically adjusts the seat height, allowing you to maintain a sterile field. The 425 is shown with optional footrest that adjusts in, out, up and down and optional arm kit that adjusts in, out and angularly.

427 Air Lift Physician Stool
Includes the same features as the 425, but with a foot lever instead of a hand ring. A touch of your heel to the foot lever pneumatically adjusts the height, allowing you to maintain a sterile field. The 427 is shown with optional back kit that adjusts in, out, up and down and optional arm kit that adjusts in, out and angularly.

276 Air Lift Stool
Our best selling stool, the 276 has become the industry standard in healthcare facilities.

Classic Series Stools
The healthcare industry's most demanded stools and the foundation of our seating product line. The Classic Series features a polished aluminum/black accented five-leg caster base and hood with a hand ring or foot lever height control (on pneumatic models). The seat height of the 274 (without back) and 275 (with back) adjusts manually while that of the 276 (without back) and 277 (with back) adjusts pneumatically. The 275 (foot ring) and 276 (hand ring) offer pneumatic height adjustments and an armrest to stabilize the physician’s arm during delicate procedures.

Value Series Stools
The economy version of the popular Classic Series offers black, plastic composite five-leg caster base and hood, and a single lever height control on pneumatic models. The seat height of the 274 (without back) and 275 (with back) adjusts manually while that of the 276 (without back) and 277 (with back) adjusts pneumatically.

425 Air Lift Physician Stool
The ergonomic design of the 425 features a contoured seat that molds to your body shape, making it the most comfortable stool you will ever sit on. A simple lift of the hand ring pneumatically adjusts the seat height, allowing you to maintain a sterile field. The 425 is shown with optional footrest that adjusts in, out, up and down and optional arm kit that adjusts in, out and angularly.

427 Air Lift Physician Stool
Includes the same features as the 425, but with a foot lever instead of a hand ring. A touch of your heel to the foot lever pneumatically adjusts the height, allowing you to maintain a sterile field. The 427 is shown with optional back kit that adjusts in, out, up and down and optional arm kit that adjusts in, out and angularly.

276 Air Lift Stool
Our best selling stool, the 276 has become the industry standard in healthcare facilities.
Let our seating products provide the comfort and support you deserve.

You are up and down all day, every day—so what you need most in seating is comfort and support. Our seating products offer wide, amply padded seats for greater comfort while a strong base structure provides superb stability.

The Ritter brand has been providing quality products to the healthcare industry for over 50 years and is recognized as an industry leader—our seating products are durable and built to last. Coordinating your rooms with Ritter and Midmark exam chairs and casework will provide a warm, inviting look that your staff and patients will recognize and appreciate.
