DESIGNED WITH YOU + YOUR PATIENTS IN MIND

What makes Ritter by Midmark the most purchased brand of examination tables in the industry? It’s our willingness to research, study and listen so we can meet your needs—and your budget. The Ritter 204 is the culmination of years of research in design, comfort and function in a manual examination table.

Stylish. Comfortable. Easy to clean.

The seamless design of the Ritter 204 upholstered top is as soft and comfortable as it looks. And the seamless upholstery design reduces areas where dirt and bacteria can accumulate so clean-up can be easier, faster and more effective.

**REMOVABLE TOP SYSTEM**
The one-piece, upholstered top is designed to be easily removed without tools for a more thorough cleaning or a quick upholstery change.

**ONE-PIECE SEAMLESS DRAWERS**
The Ritter 204 drawers are designed with rounded, seamless edges to help contain spilled fluids and improve infection control.

**ENLARGED FOOTSTEP**
We increased the size of the footstep to over 40% above the industry standard to help patients feel more secure when accessing and exiting the table.

**SPACIOUS SIDE DRAWERS**
Three side drawers provide point of care storage for gowns, drapes and other large items, as well as organized storage for smaller supplies and bulk items. Two front drawers provide easy access to items during lower body exams.

**STORAGE ACCESS + VOLUME**
Pass-through side drawers provide access to supplies from either side of the exam table and give you the flexibility to change your room layout or workflow.

**PULLOUT STIRRUPS**
Integrated in the exam table, the pullout stirrups provide leg support for patients during lower body examinations.

**RITTER® EXAMINATION TABLES**

Stylish. Comfortable. Easy to clean.
Accessories + Options that add versatility

Assist Handles
Designed to offer patients a stable platform for accessing the table and a sense of security during ingress, egress and positioning while on the table.

Articulating Knee Crutches
The unique ball-joint design allows for maximum range of adjustment and can help ensure optimum knee and leg support.

Standard Knee Crutches
Swivel to provide leg support for extended procedures where fatigue is a factor or when the patient lacks sufficient leg strength or control.

Flats
Provides an excellent working surface for exams and procedures where you need a little more space.

Seamless
Plush, seamless upholstery designed to be more comfortable for the patient and easier to clean for you.

Soft Touch
Designed to be comfortable for the patient yet durable enough to stand up to the rigors of the clinical environment.

Articulating Knee Crutches
The unique ball-joint design allows for maximum range of adjustment and can help ensure optimum knee and leg support.

IQvitals® Table Mount
Convenient table mount for the Midmark IQvitals vital signs device, designed to fit all Ritter exam tables.

Ritter® 253 LED Exam Light
The 253 is designed with easy access controls, high intensity light and an adjustable focal spot. Available in table or wall mount and mobile options.

Lower Body Drain Pan
Ideal for lower body procedures or other situations where removal of fluid and debris is necessary.
Ritter® 203
Treatment Table

FEATURES
The economical Ritter 203 is constructed of steel from its frame to its legs. This metal-on-metal design helps give the 203 greater stability and structural integrity. Its flat-top design provides a stable, solid surface for patient manipulations or adjustments during examinations while extra padding and a built-in headrest pillow help keep patients comfortable. And the Mist colored base complements any of the Ritter upholstery colors.

OPTION
Drawers
Rounded drawers with color inserts are available on the right or left side of the table.
Ritter® 95
Treatment Table

FEATURES
The Ritter 95 is an economical solution that’s built to function in a wide range of applications. It’s ideal for new medical practices, industrial first aid areas, school nurses’ stations or as an additional table wherever needed. The hardwood construction and H-brace frame design improve strength and stability while the 27” width and 72” length help accommodate a wider range of patients. (Paper roll holder included.)

OPTION
Vinyl Upholstered Shelf
Provides space at the point of care to place supplies or use as an additional worksurface.
