

## CPR SIMULATION TRAINING, HALF DAY 4 HOURS RACE<sup>®</sup> CE

In this 4-hour course, your team will receive comprehensive training in the latest CPR guidelines. This includes a mix of exercises, group discussions and lectures focused on key concepts, followed by a hands-on session using advanced simulation technology to practice and reinforce skills. The structured approach is designed to enhance knowledge and confidence in performing CPR.

### TRAINING TOPICS INCLUDE:

- Learn and practice proper BLS and ALS CPR.
- Identify different types of arrest and respond with breed- and species-specific techniques for dogs and cats.
- Initiate direct, effective communication with team members.
- Discuss each team member's role and responsibilities throughout a CPR event.
- Understand the effects, calculations and administration methods of emergency medications and IV fluids.

Class size is limited to 10 attendees and one attendee **MUST** be a veterinarian.

For questions or to register for your training session, please contact your local distributor representative or email [midmarkacademy@midmark.com](mailto:midmarkacademy@midmark.com).
