holter

Holter

The following is a summary of Current Procedural Terminology (CPT®) codes commonly used for various Holter monitoring procedures performed with a Midmark Holter device. This information is provided only as a guide and is not intended to replace any official recommendations or guidelines, and does not constitute a promise or guarantee by Midmark regarding coverage or payment. Always check with the specific payer for the appropriate use of any CPT or ICD-10 codes. Physician fee schedule values listed are based on a national average and are rounded for brevity. Specific payments vary geographically. Codes and rates are subject to change. It is the responsibility of the provider to determine the correct coding for services provided.

CPT® Code	Description	National Average+
93224	External electrocardiographic recording up to 48 hours by continuous rhythm recording and storage; includes recording, scanning analysis with report, review and interpretation by a physician or other qualified health care professional	\$93
93225	External electrocardiographic recording up to 48 hours by continuous rhythm recording and storage; recording (includes connection, recording, and disconnection)	\$27
93226	External electrocardiographic recording up to 48 hours by continuous rhythm recording and storage; scanning analysis with report	\$38
93227	External electrocardiographic recording up to 48 hours by continuous rhythm recording and storage; review and interpretation by a physician or other qualified health care professional	\$27
	• For less than 12 hours of continuous recording, use modifier 52 • For greater than 48 hours of monitoring, see Category III codes 0295T-0298T	

CPT Manual Instructions for Cardiovascular Monitoring Services¹

- Cardiovascular monitoring services are diagnostic medical procedures using in-person and remote technology to assess cardiovascular rhythm (ECG) data.
- Holter monitors (93224-93227) include up to 48 hours of continuous recording.

Report proper ICD-10-CM diagnosis codes to support the medical necessity for the use a Holter monitor. ICD-10-CM codes and/or ranges are provided below to help with your decision process.

ICD-10-CM Description	ICD-10-CM Code/ Range	ICD-10-CM Description	ICD-10-CM Code/ Range
Abnormalities of breathing	R06.00-R06.9	Pain in chest	R07.1-R07.9
Abnormalities of heart beat	R00.0-R00.9	Paroxysmal tachycardia	I47.0-I47.9
Aneurysm of heart	I25.3	ST elevation (STEMI) and non-ST elevation (NSTEMI) myocardial infarction	I21.0-I21.4
Angina pectoris	120.0-120.9	Subsequent ST elevation (STEMI) and non-ST elevation (NSTEMI) myocardial infarction	I22.0-I22.9
Atrial fibrillation and flutter	I48.0-I48.92		
Bradycardia, unspecified	R00.1		
Cardiac arrest	I46.2-I46.9	Syncope and collapse	R55
Cardiac murmurs and other cardiac sounds	R01.0-R01.2		
Chronic ischemic heart disease	I25.10-I25.9		
Dizziness and giddiness	R42		
Gangrene, not elsewhere classified	I96		
Old myocardial infarction	I25.2		
Other cardiac arrhythmias	I49.0-I49.9		

+ Based on the Medicare Physician Fee Schedule (MPFS) National average for Facilities and Non-Facilities for calendar year 2016.
