Continuing Education for the Veterinary Professional

## Anesthesia Monitoring 101

**Our comprehensive, hands-on, half-day, anesthesia monitoring training is provided in your clinic by a member of the Midmark Animal Health Training and Education Network.**

This training from Midmark Animal Health will help participants become familiar with best practices for operating and maintaining their anesthetic and monitoring equipment.

Training topics include:

- Anesthesia machine theory of operation, function of components and flow of gases
- Proper equipment maintenance for long-term performance and better patient outcomes
- Overview of ACVAA anesthetic monitoring guidelines for small animals
- Five parameter, hands-on monitoring including circulation, oxygenation and ventilation
- How vital signs are measured and what the readings mean

Veterinarians and credentialed technicians who complete this session will earn 4 hours of CE credits\* for Anesthesia Monitoring 101.

Class size is limited to 10 attendees. To set up your training session or if you have any questions, please contact your local distributor representative or call 1-800-360-2186.

Order Number: **VI-AMT = \$1,150\*\***

\*This program was reviewed and approved by the AAVSB RACE program for 4 hours of continuing education in jurisdictions which recognize AAVSB RACE approval. Please contact the AAVSB RACE program if you have any comments/concerns regarding this program's validity or relevancy to the veterinary profession. Provider #436.

\*\*Prices vary for clinics located outside the Continental United States.

## Anesthesia Monitoring 201

**Building on the skills of our 101 lab, our 201 is provided in your clinic by a member of the Midmark Animal Health Training and Education Network.**

Following the prerequisite Anesthesia Monitoring 101 dry lab, this course will help participants learn the keys to completing a successful anesthetic case.

Training topics include:

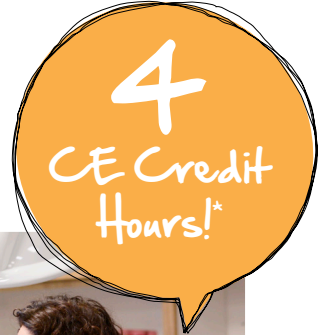

- Review of ACVAA/AAHA monitoring/anesthesia guidelines
- Setting up the patient for an anesthetic case
- Balanced anesthesia/pain management best practices
- Troubleshooting vital signs readings and anesthetic complications
- Developing an anesthesia record-keeping plan

Veterinarians and credentialed technicians who complete this session will earn 4 hours of CE credits\* for Anesthesia Monitoring 201.

Class size for AMTEN 202 is limited only by the size of the classroom space.

To set up your training session or if you have any questions, please contact your local distributor representative or call 1-800-360-2186.

Order Number: **VI-AMT2 = \$1,150\*\***

### Anesthesia Monitoring Training & Education Network (AMTEN)

All of our AMTEN trainers are NAVTA accredited specialists with the VTS (Anesthesia) designation and lead the industry in training and educating veterinary clinicians in the best practices of anesthetic monitoring. The network includes faculty members of several top veterinary university programs and national conferences as well as the immediate past president, current president and president-elect of the American Veterinary Technician Anesthetists organization. Their work appears regularly in esteemed industry periodicals and textbooks, and they have support from members of the American Veterinary College of Anesthesia & Analgesia (AVCAA) to provide training to both technicians and veterinarians.
