

Midmark AcademySM

ANESTHESIA MONITORING 101

4 HOURS RACE CE

Get comprehensive, hands-on, half-day anesthesia monitoring training in your clinic, provided by a member of the Midmark Training and Education Network.

You will learn best practices for operating and maintaining your anesthetic and monitoring equipment through this course.

TRAINING TOPICS INCLUDE:

- Anesthesia machine theory of operation, function of components and flow of gases
- Proper equipment maintenance for long-term performance and better patient outcomes
- Overview of ACVAA anesthetic monitoring guidelines for small animals
- Five-parameter hands-on monitoring, including circulation, oxygenation and ventilation
- Vital signs measurement and interpretation

Veterinarians and credentialed technicians who complete this session will earn 4 hours of CE credit* for Anesthesia Monitoring 101.

Class size for AMT 101 is limited to 10 attendees.

For any questions or to register for your training session, please contact your local distributor representative or email Midmark-Academy@midmark.com.

*This program has been approved for 4 hours of continuing education credit in jurisdictions that recognize RACE approval.

**Prices vary for clinics located outside the Continental United States.

**Anesthesia Monitoring 101:
VI-AMT = \$1,550.00****

Interested in our 201 course as well?

Save \$513 by scheduling both courses for the same day.
(See reverse side for 201 course details.)

**Anesthesia Monitoring 101 + 201
VI-AMT3 = \$2,587.00****

Midmark AcademySM

ANESTHESIA MONITORING 201
4 HOURS RACE CE

Build on your skills from the 101 course with this 201 course, provided in your clinic by a member of the Midmark Training and Education Network.

In this follow-up to the prerequisite Anesthesia Monitoring 101 dry lab, you will learn the keys to completing a successful anesthetic case.

TRAINING TOPICS INCLUDE:

- Reviewing ACVAA/AAHA monitoring/anesthesia guidelines
- Setting up the patient for an anesthetic case
- Using best practices for balanced anesthesia/pain management
- Troubleshooting vital signs readings and anesthetic complications
- Developing an anesthesia record-keeping plan

Veterinarians and credentialed technicians who complete this session will earn 4 hours of CE credit* for Anesthesia Monitoring 201.

Class size for AMT 201 is limited only by the size of the classroom space.

For any questions or to register for your training session, please contact your local distributor representative or email Midmark-Academy@midmark.com.

*This program has been approved for 4 hours of continuing education credit in jurisdictions that recognize RACE approval.

**Prices vary for clinics located outside the Continental United States.

Anesthesia Monitoring Training and Education Network (AMTEN)

All of our AMTEN trainers are industry-leading NAVTA-accredited specialists with the VTS (Anesthesia-Analgesia) designation. The network includes faculty members of several top veterinary university programs and national conferences, as well as the sitting president and previous president of the American Veterinary Technician Anesthetists organization. Their work appears regularly in esteemed industry periodicals and textbooks. Members of the American Veterinary College of Anesthesia and Analgesia (AVCAA) support their training of both technicians and veterinarians.
