Leading the Way in Patient Care

WE BELIEVE DESIGN IS ABOUT NOT JUST THE SPACE, BUT THE PURPOSE OF THE SPACE. From the moment Midmark entered the dental industry, helping advance patient care has been our passion. Today, our number one commitment is helping you and your team focus on what you do best — caring for your patients, from the operatory to the mechanical room.

Midmark provides innovative solutions in dental cabinetry that fit the feel and flow of your specific practice.
Cabinetry That Fits Exactly Who You Are

Because dental practices are specialized treatment facilities, you have unique requirements that go beyond the capabilities of average millwork. Midmark technology and equipment are designed to help ensure a safe and efficient environment that fosters the caregiver-patient interaction and is conducive to the delivery of high quality care.
EVERY MINUTE COUNTS

BETTER CARE HAPPENS BY DESIGN

You pride yourself for being on the cutting edge of dentistry. The right investment in technology and equipment can help you make the most of your time and achieve better patient care and overall satisfaction.

PRODUCT
Cabinetry: Synthesis® treatment station, central station, side cabinet, dispenser and upper storage
Chair: Elevance® dental chair
Unit: Elevance left/right doctor’s delivery and rear cabinet-mounted assistant’s delivery
Stools: Doctor’s and assistant’s stools

X-ray: Preva® mounted in central station plate storage box
Monitor: left/right monitor mount

COLORS
Cabinet: Acorn
Countertops: Aria Viatera® Quartz
Upholstery: Charcoal Ultradeather®
Wall: Argos SW7065
Floor: Mannington™ Adura™ (Vibe)
Higher Tech. Higher EFFICIENCY.

Technology is your focus. But it’s only half the story. Streamlining processes and operatory efficiency are vital. Thoughtful design is integrated into all Midmark equipment to keep your office running as efficiently as possible.

USB options allow you to charge ancillary devises and transport data.

Integration Control Module® manages all of your delivery components from one location, giving you maximum control that is simple to operate.

Central Station efficiencies allow you to share one X-ray between two rooms.

Central Stations allow you to share one sink between two operatory entries.

Upper tower storage in the treatment station frees up lower cabinet for supplies while housing CPU with built-in venting and cable management.

Equipment drawers bring items like lasers and other small equipment closer to you, promoting better ergonomics and efficiency.

Patient-facing monitor allows treatment options to be easily reviewed and discussed.

Limited seam upholstery makes cleaning chairs easier and operatory turnover quicker.
PATIENT FOCUSED

ACHIEVE THE IDEAL BALANCE BETWEEN EXPRESSIVE DESIGN AND OPERATIONAL EFFICIENCY

In your practice, the comfort of every patient matters. And nothing builds trust better than a warm and inviting setting. Midmark transforms the cold and clinical equipment of the past into a vibrant symbol of your passion.

PRODUCT:
- Artizan® Expressions treatment station, central station, side cabinet
- Elevance with Serenescapé® Chair
- Treatment station, central station, side cabinet
- Rear cabinet-mounted Procenter doctor’s delivery and assistant’s delivery
- Doctor’s and assistant’s stools
- Preva mounted in central station
- LED track light monitor

COLORS:
- Cabinet: Black Riftwood (bottom), Pewter Frost (top)
- Resin: Silver Spun Lumicor®
- Countertops: Minuet Viatera® Quartz
- Upholstery: Sorbet UlraLeather®
- Wall: Argos SW7065
- Floor: Shaw® - Thoroughly Modern 6 (Debutante)
Expressive Design and Function

You already know that your patients’ comfort and satisfaction are affected by the look and feel of the space around them. Create a warm and inviting operatory that is functional and durable enough to withstand the rigors of the dental environment.

01 Track Light Monitor enhances patient experience by providing entertainment during procedures and education for better case acceptance.

02 Attractive cabinetry creates an inviting environment that reflects the quality of care you provide.

03 Two-tone color on the same cabinet can make a space feel lighter and more open.

04 Unique storage options allow clinical supplies to be hidden from patients yet easily accessible by staff.

01 Rear delivery reduces patient anxiety by keeping instruments out of view.

02 Chair heat and massage keeps patients warm and relaxed during long procedures.
SMALL SPACES, BIG IDEAS

DESIGN THAT TAKES INTO ACCOUNT NOT JUST THE SPACE, BUT THE PURPOSE OF THE SPACE

Are your ambitions larger than your floor plan? We’ve got you covered. Our custom and modular cabinetry and operatory equipment are designed for maximum efficiency in minimal spaces.

PRODUCT
- Cabinetry: Artizan Expressions expanded treatment station, side station, and wall storage module
- Chair: UltraTrim® dental chair
- Unit: Procenter side delivery and rear cabinet-mounted assistant’s delivery
- Stools: Doctor’s and assistant’s stools
- Light: Ceiling mounted LED

Monitor: Sliding track monitor mount on treatment station

COLORS
- Cabinet: Walnut Riftwood
- Resin: Meadow Lumicor®
- Countertops: Granola Corian® Solid Surface
- Upholstery: Lake Ultraleather®
- Wall: Olympus White SW6253
- Floor: Shaw® Boulevard (Crisp Linen)
Work Without Limitations

Small nooks and snug spaces make for cozy and intimate settings, but also present unique workflow challenges. For those hard-to-fit places, Midmark equipment is designed to open up the possibilities of your office with clever cabinetry and smart workflow solutions.

01 Side delivery docks out of the way when not in use, opening space for other carts or equipment to be brought in and out.

02 Shallow expanded treatment stations have a small footprint and can provide a sink with additional storage at the operatory entry.

03 Slide-out storage can be prepped with commonly needed supplies keeping staff from leaving the operatory and making the supplies easily accessible during procedures.

04 Lift-up doors provide greater clearance in tight spaces and allow visibility to all upper contents upon opening.

ACCESS
Chair rotation allows better access to the patient in small spaces.
DESIGN THAT TAKES INTO CONSIDERATION NOT JUST THE WORKFLOW, BUT THE PEOPLE WORKING IN IT.

Your practice is large, polished and successful. But even in the face of impressive growth, the bottom line still matters. Striking the right balance between attractive cabinetry and equipment and long-lasting value is important.

PRODUCT
Chair: UltraTrim dental chair
Unit: Asepsis® 21 left/right doctor’s delivery and left/right rear chair-mounted assistant’s delivery
Stools: Doctor’s and assistant’s stools
X-ray: Preva mounted in pass-through cabinet
COLORS
Cabinet: Synthesis: Henna; Artizan Expressions: Smoked Knotty Ash
Countertops: Hazelnut Corian® Solid Surface
Upholstery: Sonora Ultraleather®
Wall: Colonial Revival Gray SW2832
Floor: Shaw® Renaissance (graphite)
Greater Volume. Greater Value.

Midmark durability and quality work as hard as you do, even in the most heavily trafficked areas of your practice. With modular designs, equipment compatibility and innovative design solutions, Midmark makes it possible to provide exceptional care for an exceptional value.

01 Wall-mounted side cabinets provide storage and secondary work surface support and can easily be cleaned underneath for high-traffic areas.

02 Modular cabinets can provide needed storage, function and additional value.

03 X-ray pass-through cabinets are a cost-effective way to share X-rays between two operatories.

04 Choice packages offer quality and reliability with an affordable chair, unit and light bundle.

05 Left/right equipment compatibility allows multiple operators to use the same operatories without compromising functionality.
Things to Consider

What’s important to you? We’re not just asking about cabinet colors and options, but also how do you want to practice? It’s a good idea to begin thinking about what you want and need in your operatories to be effective and make the delivery of care more efficient. Based on years of observing the clinical space, we have one basic recommendation: Design not just for how your operatories will look, but how you want to work in them and the environment you want to create.

FIRST THINGS FIRST

Grab a pen and answer these initial questions:

1. What do you like about your current operatory design?
2. What aspects of your current operatory design do not allow you to deliver quality care?
3. What do you want your operatory design to be able to do that you cannot today?
4. What image do you want your future operatory design to portray to your patients?

With 1 being the highest and 7 being the lowest, rank in order the importance of the following when considering your future operatory design.

- Durability and Longevity
- Aesthetics
- Efficient Office Flow
- Design Flexibility
- Cost effectiveness
- Patient Comfort
- Technology integration

NEXT STEPS

Now, go back through the designs shown on pages 6-21. Mark the features and looks that appeal to you. What do you like about one or all?

A LITTLE MORE DETAIL

1. What type of dentistry do you practice?
   - General Practice
   - Specialty
   - Oral Surgery
   - Other

2. What type of room design concept do you prefer?
   - Closed Room
   - Open

3. If closed room, how many entries?
   - One
   - Two

4. What will be the size of your future operatories? (Ideal size is 10’ W x 12’ D x 9’ H)
   - Depth:
   - Width:
   - Ceiling Height:

5. Where are clean instruments stored?
   - Sterilization area
   - Operatories

6. Do you plan to use a cassette system?
   - Yes
   - No

7. What type of delivery do you prefer?
   - Chair-mounted
   - Rear Delivery
   - Side Delivery

8. Where do you want your lighting mounted?
   - Chair
   - Cabinet
   - Ceiling
   - Track

9. Will there be monitors and CPUs in each operatory?
   - Yes
   - No

If so, what will they be used for?
   - Practice Management
   - Patient Education
   - Entertainment

10. How many sinks?

11. Do you plan to have any hygiene specific rooms?
   - Yes
   - No

12. If imaging is in each operatory, where will it be mounted?
   - Wall
   - Central Cabinet
   - Wall Pass-Through

13. Are there any local codes/ regulations we need to help accommodate?

14. What types of ancillary equipment do you use in your operatories?

15. Are there any other specialty carts or equipment your operatory needs to accommodate?
“It has almost been ten years since we had our cabinets from Midmark installed, and they still look and perform just as well as when they were first installed! We loved being able to go to the Midmark showroom and see all of their products in work settings. It clearly demonstrated to us our options and allowed us to see and choose exactly which products would best suit our needs. We wouldn’t go anywhere else.”

Dr. Mark Armstrong
Armstrong Dentistry, Troy, OH
Dental practices are specialized treatment facilities with needs that are profession and practice specific. Unlike Artizan Expressions and Synthesis Cabinetry, local millwork is basic in design, and oftentimes, the builder lacks the expertise necessary to provide important functional features. Typical materials used in local millwork may not be different than what is used in kitchen-grade cabinets and are not durable enough to perform well in a dental environment. Understanding the difference in construction is very important.

Midmark Cabinets vs. Local Millwork

**CABINET FRAME**

01 Artizan Expressions
- 3/4" industrial-grade particle board
- Can be configured to specific design requirements

02 Synthesis Cabinetry
- 18-gauge cold rolled steel
- Modular design

03 Local Millwork
- Often made from 1/2" to 5/8" low-density particle board or various types of plywood
- Basic or limited designs

**PANEL SUBSTRATES**

01 Artizan Expressions
- Industrial-grade particle board
- 3/4" panels

02 Synthesis Cabinetry
- Medium-density fiberboard
- 3/4" panels

03 Local Millwork
- Low-density particle board
- Various types of plywood

**BASE MATERIAL**

01 Artizan Expressions
- Seamless stainless steel
- Integrated adjustable levelers

02 Synthesis Cabinetry
- Thermofoil over electrostatic, powder-coated painted steel (woodgrain and metallic colors)
- Electrostatic, powder-coated painted steel (solid colors)
- Integrated adjustable levelers

03 Local Millwork
- Basic plywood or particle board covered with laminate
- Wood shims used for leveling

**FINISHES**

01 Artizan Expressions
- Factory pre-applied, thermally fused melamine
- 3 mm PVC edgebanding

02 Synthesis Cabinetry
- PVC thermofoil (woodgrain and metallic colors)
- PVC thermofoil and electrostatic, powder-coated paint (solid colors)

03 Local Millwork
- High-pressure laminate
  - Do not always follow proper application methods
  - May use low grade substrate material
  - Less than 2 mm edgebanding
  - Varnished, painted or left unfinished

**TYPES OF ASSEMBLY**

01 Artizan Expressions
- 100% glue dowel assembly

02 Synthesis Cabinetry
- Mechanical fasteners (screws, pop rivets) and Tog-L-Loc® sheet metal joining system

03 Local Millwork
- Frequently uses staple fasteners

**DRAWERS**

01 Artizan Expressions
- Wood bottom and backs with factory, pre-applied thermally fused melamine
- Metal sides with front panel adjustment and removal feature

02 Synthesis Cabinetry
- Seamless, polystyrene drawers

03 Local Millwork
- Inside drawers are often varnished, painted or left unfinished

**DRAWER SLIDES**

01 Artizan Expressions
- Full extension ball-bearing drawer system
- Soft-close feature

02 Synthesis Cabinetry
- Full extension ball bearing drawer system
- Secured to steel foundation
- Soft-close feature

03 Local Millwork
- Typically use a single, undermounted runner (monorail glides) or slides common in kitchens (less durable)

**HANDLES**

01 Artizan Expressions
- Brushed nickel handles

02 Synthesis Cabinetry
- Integrated and insert handle option
- Brushed nickel pull options
- Antimicrobial option

03 Local Millwork
- Most use “C” style pulls made of plastic or aluminum

Fabrication of local cabinets may vary. However, materials depicted are typical in local millwork cabinetry.
Understanding The Details

Both Artizan Expressions and Synthesis Cabinetry provide designs that meet ergonomic workflow, infection control, technology integration and unique storage requirements, offering maximum flexibility to customize cabinetry solutions.

SYNTHESIS CABINETRY (LEFT)
- Multiple panel and handle styles
- Exceptional durability
- Asepsis-friendly design
- Modular design
- LEED® aligned
- Patent pending manufacturing process

ARTIZAN EXPRESSIONS (RIGHT)
- Modern look
- Unique design
- Design flexibility
- Attention to detail
- Specialty and custom offerings
- Treatment Station protected by patents
Synthesis Cabinetry

Standard Features

Aligned with the LEED® Green Building Rating System, the steel frame provides the durable structure and asepsis-friendly design required for long product life. Its internal and external modularity allows for easy modifications and component replacement as office needs evolve.

- Touch proximity faucet
- Tempered glass in optional window doors
- Seamless polystyrene drawers and seamless panels
- Concealed steel hinges with soft-close features
- Full extension ball bearing glides with soft-close features
- Solid surface countertops
- Two-Inch drawer with divider

Synthesis Color and Style Options

Synthesis Cabinetry offers different color and styling options to allow you to put your unique signature on a space, whether it is in one office or a multi-facility organization.

HANDLE STYLES

Arc

PANEL STYLES

Pinnacle
Serenity
Transcend
**Renew
Cove

*EPA Registration Numbers 84542-7 and 087753-CT-001
**Available in Pebble Grey or Pebble Grey PVC, Free only.
CABINET FINISH
Membrane-pressed thermofoils seal the Synthesis MDF door and drawer panels. A special process is used to adhere the thermofoil to the steel structure on woodgrain and metallic colors. Solid colors have a matching painted structure. Thermofoil is a dimensionally flexible material that provides a continuous, seamless surface, eliminating the need for panel edgebanding while offering a high level of scratch and stain resistance.

COUNTERTOP COLORS

Solid Surface: Solid surface is a unique material made from an advanced blend of natural minerals and acrylic polymer. It has proven itself to be a remarkably durable, versatile material that’s an ideal surface for dental environments. Quartz: Quartz is virtually maintenance free and, because it is one of nature’s strongest materials, it is also incredibly durable, exceptionally tough and scratch resistant. Laminate: Offering a variety selections, laminate countertops provide function while complementing any style of decor.

Artizan Expressions brings a unique and modern look to the dental space. We believe "best is standard" and use only quality components and materials on every cabinet we build.

**Standard Features**

- Stainless steel bases
- Concealed, soft-close steel hinges
- Glue dowel construction
- Full extension, soft-close drawer systems
- Touch proximity faucet
- Cooling fans for CPU storage
- Solid surface countertops
- Brushed nickel handles and 3 mm edgebanding

**Style and Color Options**

Express who you are by combining rich and timeless elements from traditional to modern. Choose from a wide variety of plush upholstery, artful resin panels, woodgrain and solid cabinet panels, and durable countertop selections to create a style all your own.

**RESIN**

Lumicor® EcoShield panels are made of Lumiform, a PETG resin that is 40 times stronger than glass, impact resistant and contains a minimum of 40% recycled content. This resin fully encapsulates hand-laid botanicals, organics, woven textiles or graphics. The end result is a panel that provides an artful expression on your treatment station upper.

CABINET FINISH AND UPHOLSTERY COLORS

Cabinet Finish: Available in a variety of Arauco® and Formica® colors, Artizan Expressions uses thermally fused melamine panels. These panels are created at high temperature and pressure to form a durable, peel-resistant finish. Matching edgebanding is applied to completely seal the corners from moisture. Upholstery: Accent your cabinetry with Ultraleather® which offers beautiful, luxurious, soft surfaces with exceptional durability.

U = Upholstery  |  CF = Cabinet Finish

What You Get With Midmark

DESIGN SUPPORT
Remodeling or building a new practice can be overwhelming. Midmark in-house design experts can assist with your project. Using their deep knowledge of the dental workspace and keen eye for style, they will help create the right look and layout of your dream office.

One size does not fit all. With a variety of designs, sizes and styles available between both cabinet lines, we can help you create an attractive space that is functional and built to withstand the rigors of the dental environment. Go with all one line, or mix and match our two lines to meet your needs now and into the future.

WARRANTY AND SERVICE
We stand by the quality and reliability of our Artizan Expressions and Synthesis cabinetry lines - that is why we offer a standard five year limited warranty for both lines purchased through an authorized Midmark dealer. In addition to warranty, Midmark has a large team of expert customer experience and technical support representatives that will assist you with any product questions regarding installation and service.

MANUFACTURING
Using the knowledge accrued during our more than 100 years of manufacturing history, Midmark continues to invest in its production systems. All of this to bring you the highest quality and performance you expect from your dental cabinetry.
See What Our Customers Are Saying

“The Midmark Artizan Expressions cabinetry line offers a modern and non-traditional cabinetry style. All other competitor cabinetry was very boxy and dated; my office has a modern design and the cabinetry fits perfectly.”

Dr. Maryam Horiyat
Aria Dental, Mission Viejo, CA

“During my search for dental cabinetry, I wanted a product that was made in America but still very durable. Synthesis Cabinetry offered both, and also had beautiful wood grains to choose from. We’ve had our cabinetry for five years and it still looks brand new. I fully believe that this cabinetry can last 30 plus years.”

Dr. Ron Holman
Plaistow Dental, Plaistow, NH

“The unique design of the Artizan Expressions cabinetry line sets my office apart from other traditional dental cabinetry. Midmark has also done a great job with the ergonomic storage and overall function of the cabinetry, they’ve thought of it all!”

Dr. Reza Nazari
Granada Dental, Livermore, CA

“Strong yet stylish, the steel Midmark casework line (Synthesis) was the right choice for my new office. With well-thought-out functionality in a contemporary design, it shows every patient that our office invests in the absolute best for their care.”

Dr. Brian S. Nylaan
Brian S. Nylaan DDS, Grand Rapids, MI

“I really like how modern the Artizan Expressions look can be. It allows a lot of versatility to customize a space to your own style.”

Dr. Jenna Triggiani
Two Rivers Family Dentistry, Lisbon, ME
