Leading the Way in Patient Care

WE BELIEVE THAT THE COMFORT THAT COMES FROM BETTER CARE, HAPPENS BY DESIGN. From the moment Midmark entered the dental industry, helping advance patient care has been our passion. Today, our number one commitment is helping you and your team focus on what you do best—caring for your patients, from the operatory to the mechanical room.

Midmark operatory solutions allow you to define your practice and your patient’s experience with thoughtful design and cutting-edge technology that delivers both ergonomic performance and optimal patient comfort.
Operatory Solutions to Exceed Their Expectations

Your patients spend more time in the dental chair than anywhere else in your practice. How does your practice look from there? Even the most skilled clinicians can be overshadowed by an uncomfortable chair, bad lighting, and an awkward delivery system. Your operatory equipment is the foundation of excellent patient care, so give them the high-touch experience they deserve.
You practice excellence. When ordinary isn’t an option, demand operatory equipment that combines optimal patient luxury with elite ergonomics and performance.

**PRODUCT**
- Cabinetry: Artizan® Expressions treatment station, side cabinets, dispensers and upper storage
- Chair: Elevance® dental chair
- Unit: Elevance left/right doctor’s delivery and rear chair-mounted assistant’s delivery

Exceptional in Every Way

Expect more from your operatory equipment. Sophisticated styling, optimal patient access and exceptional patient comfort come together in the Elevance dental chair. Make excellence happen every day.

ELEVANCE OPERATORY

01  Greater flexibility to enhance the way you work. Allow for seated or standing procedures even in small operatory spaces with the Midmark unique Cantilever Forward® chair design.

02  Immediate control of air and water adjustments, to all instruments, from a centrally located screen with an intuitive user interface and quick transitions between users and presets, all with the Integration Control Module®.

03  Accentuate patient comfort and position them for full clinician access with the sculpted headrest and contoured seat pocket.

04  Independent and precise control of air and water flow for each handpiece with patented Kink Valve® technology.

01  Stay seated throughout procedures by integrating accessories into your delivery system. Available with intraoral cameras, electric motors, ultrasonic scalers and curing lights.

02  Reduce patient anxiety with a relaxing, positive experience that keeps them coming back with the SerenityEscape® heat and massage system.
You prioritize your patients’ comfort. From where they sit for a procedure to how long they sit there, every piece of your operatory matters. Maintain lifelong patients with the ideal marriage of style and efficiency.

Be Unforgettable

When you work efficiently, your patients have a better experience. Add unique touches of luxury and you have created an experience that makes an impression. Give yourself and your patients the best of both worlds with an operatory that is both highly functional and designed to impress.

ELEVANCE PROCENTER OPERATORY

SOLUTIONS THAT COMPLEMENT THE WAY YOU WORK

01 Reduce stress on your lower back throughout the day by eliminating the need for bending over to lock or unlock the rotation of your dental chair with the electronic rotation lock/unlock feature.

02 Improve workflow and keep your patients relaxed with instruments within easy reach but out of patient view with the flexible rear delivery option.

03 Maximize energy efficiency with only 22 watts of power consumption while producing a bright white light at 27,000, 21,000 and 15,000 Lux with the LED Dental Operatory Light.

04 Minimize work-space clutter and keep all instruments and the work-surface within reach of both clinicians during a procedure with a single mount arm for the doctor’s and assistant’s unit.

05 UNIQUE PRODUCT OFFERINGS

Work safely and efficiently by combining Midmark’s unique product offerings to build an office that is ergonomic and designed for you.
RENOWNED QUALITY

ULTRA SERIES PROCENTER OPERATORY

You pay attention to the details. It’s why you’re known for quality care. And, it’s why you should never settle for operatory equipment that makes you trade performance for thoughtful design.

Value Lives Here

Turn an average trip to the dentist into an incredible experience without breaking the bank. We bring capability and affordability together to help you provide the quality of care your patients expect.

ULTRA SERIES ASEPSIS 21 OPERATORY

01 Unrestricted clinician access to the patient along with premium patient comfort and support with the UltraComfort and UltraTrim Dental Chairs.

02 Maximize energy efficiency with only 22 watts of power consumption while producing a bright white light at 27,000, 21,000 and 15,000 Lux with the Midmark LED Dental Operatory Light.

03 Excellent visualization of tissues and details with true, reduced shadow and incandescent white light from the Halogen Dental Operatory Light.

04 Uncompromising reliability from Midmark-patented Kink Valve technology backed by a 10-year limited warranty.

01 Improve asepsis by keeping air and water controls covered and protected with a removable top.

02 Complement the way you prefer to work with mounting options including left/right, console, rear delivery, or cart mounted (shown) options.
Things To Consider

What’s important to you? We’re not just asking about upholstery colors and options, but how do you want to practice? It’s a good idea to begin thinking about what you want and need in your operatories to be effective and make your delivery of care more efficient. Based on years of observing the clinical space, we have one basic recommendation: Design not just for how your clinic works today, but how you want to work in it and the environment you want to create for the future.

FIRST THINGS FIRST
Grab a pen and answer these initial questions:

1. What do you like about your current operatory products?

2. What aspects of your current operatory do not allow you to deliver quality care? What could be improved?

3. What do you want out of your operatory products that you do not have today?

4. What image do you want your future operatory products to portray to your patients?

With 1 being the highest and 7 being the lowest, rank in order the importance of the following when considering your future operatory design.

- Durability and Longevity
- Aesthetics
- Design Flexibility
- Efficient Office Flow
- Patient Comfort
- Cost Effectiveness
- Handpiece Integration

NEXT STEPS
Now, go back through the operatory packages we show on pages 6-21. Mark the features and looks that appeal to you. What do you like about one or all?

Elevance Operatory (p. 6-9)

Elevance Procenter Operatory (p. 10-13)

Ultra Series Procenter Operatory (p. 14-17)

Ultra Series Asepsis 21 Operatory (p. 18-21)

A LITTLE MORE DETAIL

1. What type of dentistry do you practice?
   - General Practice
   - Specialty
   - Oral Surgery
   - Other

2. What type of delivery do you prefer?
   - Chair-mounted
   - Rear Delivery
   - Side Delivery

3. From where do you prefer to control your chair?
   - Foot control
   - Delivery mounted control
   - Chair mounted control

4. Do you prefer halogen or LED lighting?
   - Halogen
   - LED

5. Where do you want your lighting mounted?
   - Chair
   - Cabinet
   - Ceiling
   - Track

6. Do you want to integrate any instruments into your delivery system(s)?
   - Scaler
   - Electric Motor
   - Intraoral Camera
   - Curing Light

7. Will there be monitors and CPUs in each operatory?
   - Yes
   - No

11. What types of ancillary equipment do you use in your operatories?

12. Any other specialty carts or equipment your operatory needs to accommodate?

6. Do you plan to have any hygiene-specific rooms?
   - Yes
   - No

8. Are you considering stools?
   - Yes
   - No

If yes, please tell us what stool ergonomics means to you:

9. Where do you want your lighting mounted?
   - Chair
   - Cabinet
   - Ceiling
   - Track

10. Are there any local codes/ regulations we need to help accommodate?
“Midmark has been a true partner during our ground up project. We were able to purchase the majority of our equipment from Midmark because of their diverse equipment portfolio. They also align with our values of patient comfort and quality care, which was huge for us. The continued customer support has also been fabulous and they stand behind their equipment.”

Elevance Dental Chair

Do your patients think luxury when they think of your practice? The Elevance Chair is where sophisticated styling, optimal patient access and exceptional patient comfort come together in a dental chair. With greater support, ease of entry/exit and quiet, precise operation, this chair will elevate your performance while boosting patient confidence and far exceed their expectations.

ELEVANCE CHAIR CONFIGURATIONS

ELEVANCE FEATURES
- Offer comfort beyond expectation with plush Ultraleather® upholstery.
- Reduce patient anxiety with the relaxing, spa-like experience of the SerenEscape heat and massage system.
- Protect your career with next-level ergonomics and an electronic chair lock preventing you from constantly bending over to lock and unlock the chair.
- Comfortably perform procedures seated or standing.
- Count on exceptional range of motion while minimizing the floor space needed for full motion with the Cantilever Forward design.
- Enjoy optimal access thanks to the thin, narrow cast-aluminum backrest and integrated armrests.

ULTRATRIM CHAIR CONFIGURATIONS

ULTRATRIM FEATURES
- Gain unprecedented access to the patient with a narrower chair back that is 40% thinner than our standard chair.
- Provide unencumbered patient entry and exit with a patented chair-back design featuring a cast-aluminum structure with integrated armrests.
- Rely on smooth, quiet, precise operation with standard programmable chair controls and a hydraulic drive system.
- Choose seamless standard, plush Ultraleather® or a limited-seams version of Ultraleather® upholstery.

ULTRACOMFORT CHAIR CONFIGURATIONS

ULTRACOMFORT FEATURES
- Give your patients exceptional comfort with a fully contoured back and specially designed lumbar support.
- Cradle the key patient support areas of the elbows and inner shoulders with a patented chair-back design featuring a cast-aluminum back with integrated armrests.
- Trust smooth performance with programmable chair controls and a hydraulic drive system.
- Choose seamless standard, plush Ultraleather® or a limited-seams version of Ultraleather® upholstery.

Ultra Series Dental Chair

Designed to be better. The UltraTrim and UltraComfort Dental Chairs offer unrestricted clinical access, premium patient support and comfort. Be sure your patients are experiencing quality care from the moment they sit down, with a chair that combines performance and thoughtful design.
Delivery Systems

ELEVANCE DELIVERY
Don’t accept ordinary. Set a new standard in efficiency and maintain the highest quality of care for your patients. Combine clinician inspired design and cutting-edge technology with the time-tested quality you expect in our most sophisticated delivery system.

PROCENTER DELIVERY
From top-of-the-line components to meticulous assembly, the Procenter Instrument Delivery System helps you perform quality care for every patient, every day. Work with precision using integrated controls and adjustments that give you simple, yet refined, access.

PROCENTER TRADITIONAL
Available in chair, cabinet, and wall mounted systems, the Procenter Delivery System gives you precision, flexibility, and reliability through integrated controls and switches, exclusive pop-up lid and patented Kink-Valve® technology.

ELEVANCE TRADITIONAL
Make excellence happen every day with finger-tip controls, masterful styling, personalized controls and the ability to integrate the handpieces you prefer to use.

ELEVANCE CONTINENTAL
For over-the-patient instrument delivery that combines advanced design concepts with ergonomic balance, look no further than the Elevance Continental Style Delivery System. Experience the difference this sophisticated unit makes for you and your patients.

ELEVANCE ASSISTANT
Maintain the same style and efficiency provided in the Elevance Delivery Unit with a configuration specifically designed for a dental assistant. Standard features include the chair control with four presets, air-water syringe, HVE and SE.

PROCENTER REAR DELIVERY
Incorporating careful design, attention to detail, and quality construction, the Procenter Rear Delivery System provides the right combination of precision and flexibility to meet your practice needs while keeping instruments out of view of your patients.

PROCENTER SPECIALTY CABINET-MOUNTED
Experience the quality and reliability you’ve come to expect with the Procenter brand in a smaller, compact size specifically designed to be a standard delivery offering for our Ortho Cabinets/Carts in addition to custom applications.

PROCENTER ASSISTANT’S UNIT
Brings the thoughtful design, attention to detail, and quality construction of the Procenter Delivery Unit to a configuration ideal for the dental assistant.
Integrated Accessories

Clear the clutter and conduct faster, more accurate procedures with quality accessories integrated into your delivery system. Enjoy easy control that’s always within arms reach.

**SCALERS**
Get exactly the right control.
- SATELEC® Pure Newton® SLIM Ultrasonic—Compact, lightweight, and autoclavable scaler with patented “Cruise Control” for automatic regulation of frequency and power. Also available with LED technology.
- Dentsply™ Cavitron® Stari-mate 360 (G139)—The industry’s most popular ultrasonic scaler uses magnetostrictive technology and is detachable and autoclavable to reduce cross contamination and enhance infection control.

**CAMERAS**
Be confident in your diagnoses.
- Sopro™ Intraoral Cameras—Lightweight and easy to clean camera allows for easy image capture without blurring. Offering the 617, 717 First, SoproLIFE®, and SoproCARE™ cameras.
- SoproLIFE Camera—Offers diagnosis aid mode, treatment aid mode, and “DAYLIGHT” mode for specific high-quality image capture.
- 617 Camera—Comfortable curved design follows the natural shape of the mouth while giving a wide 105° angle of view.

**ELECTRIC HANDPIECE**
Work efficiently with perfectly silent, gentle operation and a maintenance-free brushless, autoclavable motor. The Bien Air™ Optima MX2 LED gives you motor speeds of 100 to 40,000 RPM for a broad range of procedures as well as programmable high/low RPM and RPM torque limits with auto reverse.

**CURING LIGHT**
Keep your patients relaxed with quick, quiet curing. The SATELEC® Mini LED Curing Light combines power, efficiency, and speed with silent operation and a lightweight, stylish handpiece. Polymerize 3 mm of any composite in only 6-12 seconds using a wide light spectrum and three modes of cure.
Delivery Systems

ASEPSIS 21® DELIVERY
How do you work? Maintain the high quality of care your patients expect with Midmark Asepsis 21 delivery systems, combining affordability with capability to complement the way you work.

01 ASEPSIS 21 TRADITIONAL
Provide your team with the proper tools to get the job done and keep your practice running efficiently with the quality and reliability offered by the Asepsis 21 delivery system.

02 ASEPSIS 21 CONTINENTAL
Keep all of your handpieces and air and water controls in the most convenient location while complementing the way you work with reliable, over-the-patient Asepsis 21 delivery.

03 ASEPSIS 21 REAR DELIVERY
Make your patients more comfortable by keeping instruments out of view, but still within easy and convenient reach.

Delivery Carts

Give team members easy access to the instruments they need with four sleek, compact, and affordable cart options.

DOCTOR’S CART
Work efficiently with three handpiece positions along with a 9 5/8" x 13 5/8" stainless steel instrument tray.

HYGIENIST’S CART
Easily access the most used hygienist’s instrumentation—the HVE, saliva ejector, and syringe. Get a 13”x18” optional work surface on top of two handpiece positions and a 9 5/8" x 13 5/8" stainless steel instrument tray.

ASSISTANT’S CART
Keep the assistant’s instrumentation and water quick-connect within easy reach. Choose a 9” x 13” tray or tub support along with the standard 21” x 24” stain-resistant work surface.

LEFT/RIGHT DUO CART
Choose the versatility of three handpiece positions, assistant’s instrumentation, water quick-connect, and a 21” x 24” stain resistant work surface, plus your choice of a 9” x 13” tray or tub.

Left/Right duo cart

Asscistant’s cart

Doctor’s cart

CHOOSE YOUR PREFERRED MOUNTING OPTION

Left/Right | Console | Cabinet | Wall | Ceiling | Track | Track Light Monitor | Universal
Get optimal dental lighting with excellent monitor positioning from the Track Light Monitor, which enhances the patient experience while improving efficiency and case acceptance.

Position the monitor over the patient using the counterbalanced flex arm and independent trolleys or place it at eye level for chair-side consultation. Interference with the operatory light is minimized so you and your patient enjoy unobstructed viewing of digital X-rays, intraoral camera images, patient education, and entertainment.

- Exorvision™ DenClarity™ 24" Dental Grade monitor with remote control offers HD picture with a built-in digital TV tuner.
- The Track Light Monitor is available in LED or Halogen for ceiling heights ranging from 8’ to 10’7”.

Stools

**DENTIST’S STOOL**
Reduce the musculoskeletal pain common in dentistry with a stool engineered to deliver premium styling, exceptional comfort, and thoughtful ergonomic design.

**ASSISTANT’S STOOL**
Keep your assistant comfortable through the lengthiest of procedures. With adjustable torso support and optional contoured backrest, this stylish stool promotes better posture.
Upholstery Colors

ULTRALEATHER®

Ultradeather® offers beautiful, luxurious, soft surfaces with exceptional durability. In fact, no material comes closer to duplicating the look and styling of leather. With no VOCs, POPs or formaldehyde, Ultradeather® is also environmentally friendly. Available in your choice of many standard colors and additional colors by special order.

STANDARD

Standard vinyl upholstery is stain resistant, easy to clean, and durable. Available in 20 trend setting colors.
What You Get
With Midmark

EFFICIENCY. CAPABILITY. PERFORMANCE.
When you choose Midmark, you get so much more than a product. You get a partner with decades of hands-on manufacturing expertise, inspired design innovation, and landmark thought leadership in workflow efficiency. Midmark continues its long tradition of improving patient care by infusing function-forward design, relentless quality and thoughtful technology into every product. And with an extensive warranty and dedicated technical support, we’re right by your side the moment you need us.

WARRANTY AND SERVICE
We stand by the quality and reliability of our products. That is why we offer a standard five-year parts-only warranty for operatory products when purchased through an authorized Midmark dealer. In addition to warranty, Midmark has a large team of expert customer experience and technical support representatives that will assist you with any product questions regarding installation and service.

CUSTOMIZABLE OPTIONS
“A big reason for picking Midmark was number of features and looks that we could select from. Everything’s so customizable. When we walked into the Midmark showroom we just looked at each other and said, “That’s it! That’s how we want it to look.” You get to a point when you’re designing and you’re building when it just feels right. I think when we walked into that showroom at Midmark, the way it was just laid out, it was like ‘This is it; that’s how we want it to look.’”
