

Spark your imagination with the rich colors and beautiful styling options of Midmark® Synthesis Cabinetry.

### CABINET HANDLE + PANEL STYLING

Create your ideal space with styling options that align with your brand. Panel styles include a traditional raised-panel style (Pinnacle), modern Shaker style (Transcend), minimalistic flat-panel style (Serenity) and more. Handle styles are available in a range of shapes and finishes, including an antimicrobial option.

### CABINET FINISHES

Select from a variety of woodgrain, metallic and solid cabinetry colors to complement your space. Membrane-pressed thermofoils seal Synthesis doors and drawers—ideal for infection prevention and durability. Thermofoil is a dimensionally flexible material that provides a continuous, seamless surface, eliminating the need for panel edge-banding while offering a high level of scratch and stain resistance.

### SOLID SURFACE COUNTERTOPS

Solid surface is a durable, versatile material ideal for dental environments. Made from an advanced blend of natural minerals and acrylic polymer, this non-porous surface resists stains and does not support microbial growth when properly cleaned. Its superior durability helps it withstand the impacts, nicks and cuts that blemish most other surfaces—and minor scratches can be buffed away to keep the surface looking and performing like new for years.

### QUARTZ COUNTERTOPS

Composed of 93% pure quartz crystal, quartz countertops feature a natural depth and radiance free of the imperfections common in raw stone. As one of nature's strongest materials, quartz is exceptionally durable and scratch resistant. Its smooth, non-porous surface resists even the toughest stains and retains its luster for years without requiring sealants or waxes.

### LAMINATE COUNTERTOPS

Laminate countertops offer a functional, affordable solution that complements any style of décor. Modern designs feature contemporary colors and realistic patterns with easy cleaning and low maintenance. More affordable than solid surface, quartz and engineered stone, laminate delivers style and value.
