

MEDICAL

# Clinical Education

# Care for your patients with confidence.

When it comes to implementing new medical devices, we know proficiency is best achieved with proper training and education. Midmark Clinical Education is here to meet those needs. Because at Midmark, we believe that who's using our equipment and technology is every bit as important as how and why it's being used.

# Midmark Clinical Education Services

The Midmark clinical education team is led by professional clinical educators who specialize in proper device use and workflow efficiency within your facility. In compliance with federal regulations on training for medical devices, Midmark educators have clinical backgrounds and have acquired intensive Midmark device instruction. **You can trust in our expert educators to assist you in implementing your Midmark devices.**

**IQVITALS® ZONE™**

**MIDMARK® DIGITAL VITAL SIGNS DEVICE**

**INSTRUMENT PROCESSING**

**MIDMARK® DIGITAL ECG**

## **WE CARE ABOUT YOUR SUCCESS**

That's why we provide a variety of options to accommodate your needs, as well as remote correspondence and post-educational follow-up to help ensure successful implementation.

# Onsite Clinical Education

We know that every facility has different needs. In-person, onsite clinical education is available for purchase if you would like a hands-on experience in your patient care environment. This gives us the opportunity to discuss clinical workflow and how our devices function at the point of care.

**01** Step through the process of accessing the patient chart, acquiring an ECG, performing tests and saving data to the patient chart.

**02** Set the foundation for better care with a more efficient vital signs workflow and consistent blood pressure acquisition.

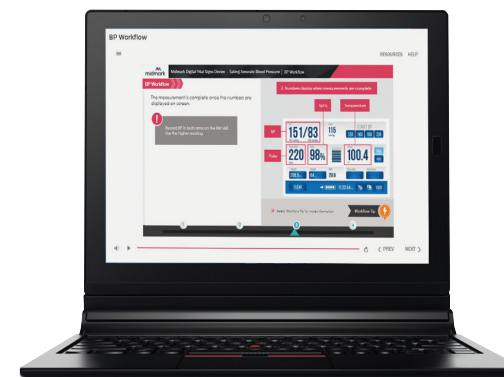

To discuss the best education option for your team, contact your Midmark Representative or email: [medicalclinicaleducation@midmark.com](mailto:medicalclinicaleducation@midmark.com)

# Virtual Clinical Education

## FLEXIBLE EDUCATION TO FIT YOUR SCHEDULE

A virtual session with a member of our clinical education team is available for purchase with each device. This includes a product capabilities demonstration, EMR workflow education and Q+A session using the technology platform of your choice.

# On-Demand Clinical Education

You will have unlimited access to our concise educational video library. eLearning modules are also available as a refresher or to support the education of new staff.

Designing better care.®
