

# Stools & Chairs

## Designed and Manufactured to Exceed Your Expectations

It begins with a wide, five-leg caster base that provides support and stability. The star-shaped base allows closer accessibility to the patient while heavy duty, dual-wheel, hooded casters enable stools to maneuver quietly over all types of surfaces.

Adding to the strength and stability of our stools is the solid steel machine screw on manual models, or air cylinder on pneumatic models. The air cylinder further acts as a built-in shock absorber, taking the abuse of a hard day's work instead of you, and is a simple and efficient method for adjusting the seat height (ideal for group practices).

Comfort is provided in the form of a wide, amply padded seat section constructed of dense foam. A beadless upholstery seam eliminates the seat edge from digging into your legs. Add a backrest to promote better posture and support to leave you feeling less fatigued at day's end.

With many choices, colors and accessories, there is certain to be a stool just right for you.

## Classic Series Stools

The healthcare industry's most demanded stools and the foundation of our seating product line. The Classic Series features a polished aluminum/black accented five-leg caster base and hood with a hand ring or foot lever height control (on pneumatic models). The seat height of the 274 (without back) and 275 (with back) adjusts manually while that of the 276 (without back) and 277 (with back) adjusts pneumatically. The 278 (foot lever) and 279 (hand ring) offer pneumatic height adjustment and an armrest to stabilize the physician's arm during delicate procedures.

## 425 Air Lift Physician Stool

The ergonomic design of the 425 features a contoured seat that molds to your body shape, making it the most comfortable stool you will ever sit on. A simple lift of the hand ring pneumatically adjusts the seat height, allowing you to find your most comfortable working height effortlessly and efficiently. Plastic covers hide the steel substructures and five-leg caster base to provide a warm, aesthetic appearance.

## 427 Air Lift Physician Stool

Includes the same features as the 425, but with a foot lever instead of a hand ring. A touch of your heel to the foot lever pneumatically adjusts the height, allowing you to maintain a sterile field. The 427 is shown with optional back kit that adjusts in, out, up and down—and optional arm kit that adjusts in, out and angularly.

## 276 Air Lift Stool

Our best selling stool, the 276 has become the industry standard in healthcare facilities.

## Value Series Stools

Economy version of the popular Classic Series Stools without compromising reliability and style. The Value Series offers a black, plastic composite five-leg caster base and hood, and a single lever height control on pneumatic models. The seat height of the 270 (without back) and 271 (with back) adjusts manually while that of the 272 (without back) and 273 (with back) adjusts pneumatically.

## 680 Side Chair

Soft and comfortable seating for your patients in the exam room, waiting room and front office. The 680 comes with all the extras: contoured seat and back section for added support; sturdy, powder coated black steel tube frame with leveling feet for increased stability; and a wall-saver kickback leg design that allows the chair to be close to the wall without damaging it. Available with or without high-impact plastic chair arms.

## 281 Blood Drawing Chair

The slightly angled back and adjustable chair arms offer patient comfort and security. Arms are equipped with quick release mechanisms for simple and efficient positioning of their height and inward/outward angle. The 281 is available with a drawer, ideal for storing supplies and providing an additional work surface.

Let our seating products provide the comfort and support you deserve.

You are up and down all day, every day—so what you need most in seating is comfort and support. Our seating products offer wide, amply padded seats for greater comfort while a strong base structure provides superb stability.

The Ritter brand has been providing quality products to the healthcare industry for over 50 years and is recognized as an industry leader—our seating products are durable and built to last.

Coordinating your rooms with Ritter and Midmark exam chairs and casework will provide a warm, inviting look that your staff and patients will recognize and appreciate.
