

SEEING CLEARLY

FOR A COMPLEX DIABETES DIAGNOSIS

Errors Impact Better Outcomes

With an industry-wide push toward value-based care reimbursement models, better outcomes are more important than ever. But, there may be errors and inconsistencies impacting your diagnoses.

of clinicians encounter diagnostic errors at least monthly.¹

of clinicians believe diagnostic errors are preventable.¹

of errors are due to an inadequate physical examination.¹

WHAT DOES THAT LOOK LIKE IN PRACTICE?

Think about it through the lens of your patients dealing with complex conditions such as diabetes.

A Better Way

With products from Midmark and HEINE® you can see clearly, diagnose with confidence and provide your patients with the care they deserve.

LED HQ
LED NOW IN HEINE QUALITY.

This exclusive technology creates a light that shows colors as they truly are.

Dustproof Design:

This design protects the optical components, ensures maintenance-free operation and makes the instrument shock-resistant.

Superior Optics:

Aspherical Optical System (AOS) redirects corneal reflections away from the examiner's path of sight, providing a crisp clear view of the fundus. It eliminates the need for filters and other systems that reduce resolution.

Better view. Better care. Better outcomes.
