

Getting this screen in Google Chrome when accessing PDF links in Midmark's Technical Library?

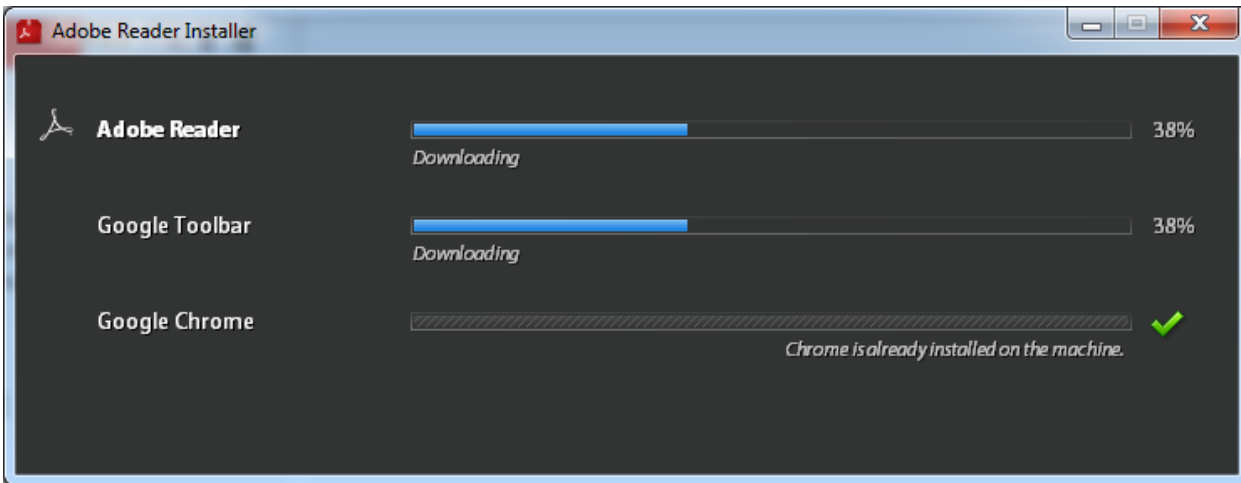

First, type "chrome:plugins" in Google Chrome address bar to check PDF plugins:

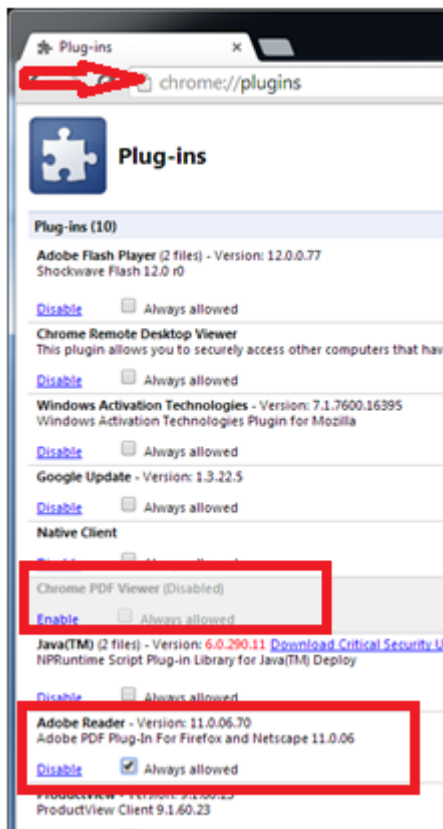

## STEPS to disable “Chrome PDF Viewer” and enable “Adobe Reader”

1. Download latest Adobe Reader version (as of 3/28/14 – XI (version 11)) - <http://get.adobe.com/reader/>

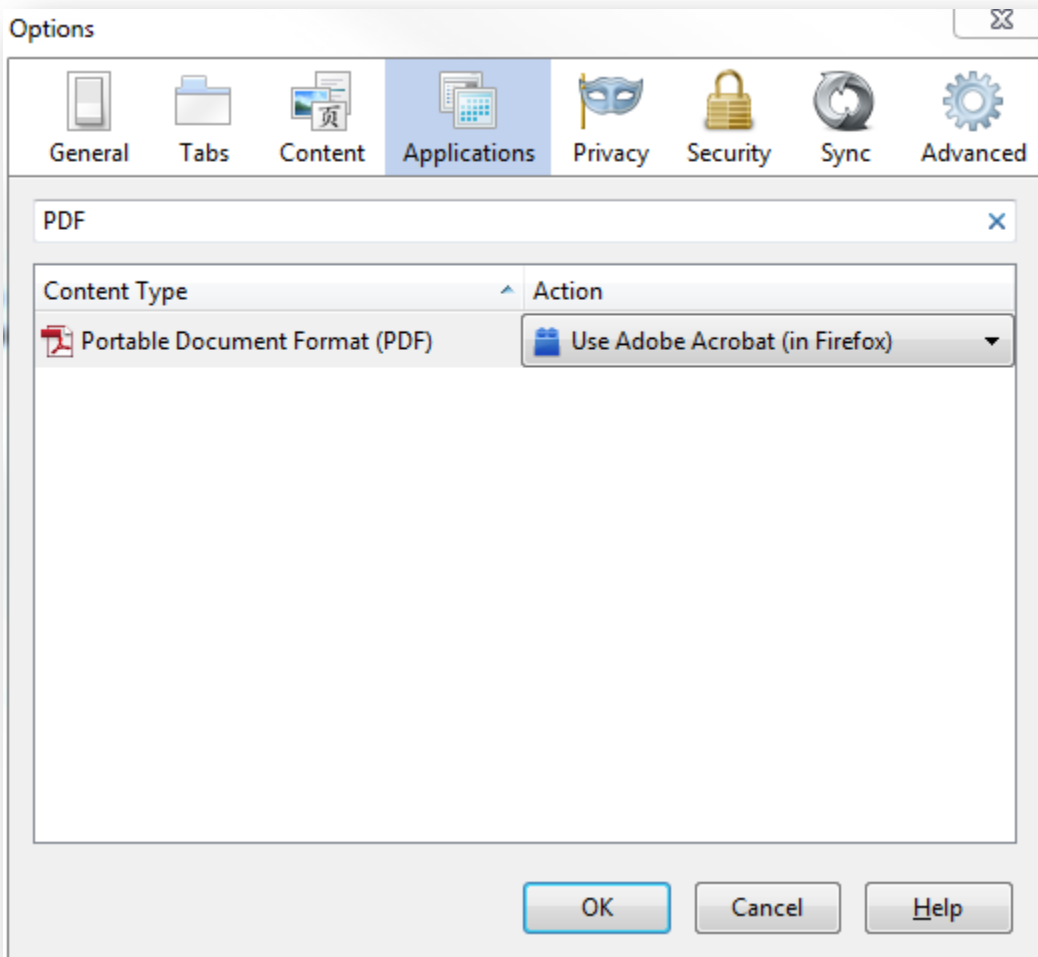

2. Type “chrome:plugins” in Google Chrome address bar to disable “Chrome PDF Viewer” and enable “Adobe Reader” as shown.

## How to change your default PDF Viewer in Firefox?

1. Open Firefox and go to Firefox > Options > Options
2. Click the Applications tab at the top of the Options window.
3. Type "PDF" in the search text box and press the Enter key.
4. Set the Action to "Use Adobe Acrobat (in Firefox)" and click OK (see screen shot).
5. Restart your web browser and navigate to the PDF file again and the links should now work.

## How to change your default PDF Viewer in IE9 or later?

1. Open IE and click the settings gear in the top right corner and select Manage Add-ons.
2. On the Manage Add-ons screen under "Show", select "All add-ons". (See screenshot)
3. Scroll down the extension listing until you see Adobe PDF Reader and ensure it is enabled.
4. Click close and then restart IE and navigate to your PDF file. All links should now work properly.
